# EcoZorb®

ABSORBENT MEDIA

SEMLER INDUSTRIES is proud to introduce its EcoZorb® line of absorbent media for cleaning up spills. EcoZorb® is made right here in the USA and comes in mats, rolls, tubes, or even custom designs. Choose Oil Absorbents (white) for petroleum based spills, Universal Absorbents (gray) for spills that are not oil based or hazardous, and Hazardous Absorbents (yellow) for spills classified as hazardous. Various sizes, styles and quantities are available along with spill "Kits" that include a little of everything. We can even customize a solution best suited for your situation, just give us a call.

### Oil Absorbent features:

- Absorbs oils, lubricants and fuels
- Floats on water to clean up oil spills
- Bright white color for easy identification and visibility
- No-slip dimple pattern for user safety
- Helps meet: CFR, 29, 40, 49 and EPA 122.26

### Universal Absorbent features:

- Absorbs any liquid
- Will not leave behind liquid or fiber residue
- No dye is used for coloring which makes these absorbents eco-friendly and increases absorbency
- Gray color alerts users that this absorbent can be used on all types of spills
- No-slip dimple pattern for user safety
- Helps meet: CFR, 29, 40, 49 and EPA 122.26

### Hazardous Absorbent features:

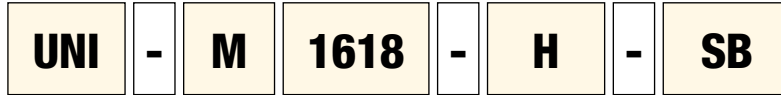

- Absorbs any liquid
- Yellow color alerts users to hazardous liquid clean-ups
- No dye is used for coloring which makes these absorbents eco-friendly
- No-slip dimple pattern for user safety
- Will not leave behind liquid or fiber residue
- Helps meet: CFR, 29, 40, 49 and EPA 122.26
